

Your always-on assistant.
Powered by AI.
Designed for eye care.

The assistant you wish you had—now you do.

MaximEyes AI, powered by EVAA, brings intelligent automation to your front office, clinical workflows, and billing. She verifies insurance, captures clinical notes, manages denials, and never takes a day off—helping your practice save time, reduce errors, and focus on what matters most: patient care.

Key Benefits

- **Save Time:** Automate manual, repetitive tasks so your team can focus on patients.
- **Improve Accuracy:** AI-driven data recognition reduces errors and ensures consistency.
- **Boost Revenue:** Submit cleaner claims, resolve denials faster, and keep cash flow steady.
- **Enhance Patient Experience:** Shorter wait times, smoother check-ins, and more time with the doctor.
- **Scale With Ease:** HIPAA-compliant, secure, and built to grow with your practice.

EVAA AI Solutions

EVAA Virtual Assistant

The new hero at your front desk.

- Answers common patient questions instantly
- Schedules, confirms, and reschedules appointments
- Sends reminders to reduce no-shows
- Provides order status updates and billing FAQs
- Frees your staff to focus on in-office care

EVAA Billing Assistant

Get paid faster, with fewer denials.

- **Eligibility Verification** – Automated checks for medical and vision benefits
- **Claims Submission** – Submit clean claims with AI-driven accuracy
- **Payment Posting** – Apply payments automatically and accurately
- **Denials Management** – Flag, correct, and resubmit denied claims quickly

EVAA Scribe

Your notes, already done.

- Captures doctor-patient conversations in real time
- Generates structured, review-ready notes with eye-care-specific terminology
- Reduces documentation burden and saves hours each day

EVAA IntelliScan

Intake, automated.

- Extracts data from insurance cards
- Speeds intake and reduces data-entry errors
- Ensures documentation is secure and audit-ready
